

# The Terrace

**Free**  
**Food for Health**  
**Courses**

**This is an invitation to attend our free, exciting horticulture course at The Terrace.**

■ Learn about the cultivation of vegetable and salad crops, growing common herbs and the propagation of fruit bearing plants.

■ Learn about the requirements of crops, the soils and nutrients, produce planters and containers. Identify and control pests and diseases.

The aim of this course is to equip you with the skills and knowledge, to grow fantastic and exciting healthy produce for your table.

The course takes the form of a series of demonstrations and practical sessions.

People of all abilities are welcome and places are very limited so early applications are essential.

This course begins on Thursday the 26th April and runs for 10 weekly sessions each Thursday 10am - mid-day.
